Mascot Design

设计理念：
本IP以“云朵拟态 + 科技情绪载体”为核心设计方向，构建一个兼具亲和与未来科技感的数字化品牌形象系统。
角色以“云朵”为基础视觉母体，通过柔和圆润的体块语言传递安全感与友好属性，整体风格采用低饱和度和冷调蓝紫光效与高光柔化处理，同时融合智能穿戴设备（耳机/能量灯效/科技服饰）的结构元素，强化其“AI智能伙伴”的身份设定，使其在视觉层面同时具备情绪陪伴属性与科技功能属性。

The character is based on a "cloud" as its visual archetype, conveying a sense of security and friendliness through soft, rounded forms. The overall style employs low-saturation, cool-toned blue-purple lighting effects with softened highlights, while incorporating structural elements from smart wearable devices (headphones, energy lighting effects, and tech apparel) to reinforce its identity as an "AI companion." This ensures the character embodies both emotional companionship and technological functionality on a visual level.
